

Global Conference On Stem Cell And Regenerative Medicine
 August 14-16, 2017
 Tyrp Barcelona Apolo Hotel, Spain

Day-1

Opening Ceremony & Registration	
09:00-10:00	
10:00-10:30	Keynote Session Title : Cell Therapy in Orthopaedics and Neurology Dr. Himanshu Bansal Principal investigator of the Indo-US mission
10:30-11:00	Keynote Session Title: Immune-cells therapy approach in the regeneration of vascular and lymphatic tissues Francisco Vidal Research Director at Regenerative Therapy Unit (UTR) Barcelona, Spain
Coffee/Tea Break 11:00-11:30	
Scientific Sessions I	
11:30-12:00	Title: International Registry for Stem Cell Therapies performed as unproven intervention in the medical practice (InReSteCell). Francisco Ruiz-Navarro Research Associate and R&D Director, Austrian Society for Regenerative Medicine
12:00-12:30	Title: Proper Establishment of Epithelial Polarity as a new mechanism for lung stem cell behavior Ahmed El-Hashash Associate Professor of Biomedicine, Stem Cells & Regenerative Medicine The University of Edinburgh, China
12:30-13:00	Title: Placental tissue allografts moving into the main stream of tissue regeneration Bruce Werber Associate Professor Surgery - Midwestern University, College of Podiatric Medicine, President, Amnio Technology LLC, USA
Networking Lunch - 13:00- 14:00	
14:00-14:30	Title: Stem cells from human placenta secrete IL-6 and VEGF and prevent death in neuronal PC12 cells subjected to glucose- and oxygen deprivation Yavin Ephraim Dept. of Neurobiology, Weizmann Institute of Science, Rehovot. Isreal
14:30-15:00	Title: Induction of Epimorphic Regeneration in Human Leukocytes Ilham Saleh Abuljadayel TriStem Corporation Ltd,UK
15:00-15:30	Title: Critical limb ischemia and chronic lymphedema immunotherapy- bone marrow stem cells treatments.Preliminary clinical data Montserrat Salarich Estruch Angiology and Vascular Surgery, Clinica Diagonal, Barcelona, Spain
Coffee/Tea Break 15:30-16:00	
16:00-16:30	Title : Mechanistic Insights into the Self-Renewal and Differentiation of Human Pluripotent Stem Cells in Response to Wnt Signaling Lisheng Wang Associate Professor, Department of Biochemistry, Microbiology and Immunology, Faculty of Medicine Canada
16:30-17:00	Title: PRP in combination with high energies: an anti-aging treatment protocol proposed by the Center of Regenerative Surgery Marco Scala Scientific Director Biorigen International, Losanna, Switzerland.
Panel Discussion	

Day-2	
09:00 -10:00	Opening Ceremony
10:00-10:30	Title: Renal failure and Regenerative medicine. Miguel Guillermo Garber Cardiology, Regenerative Medicine.Vice-President Spanish Society of Medicine, Regenerative and Cell Therapy, Semeretec
10.30-11:00	Keynote Session Title: The Role of Nitric Oxide in Regenerative Medicine Nathan S. Bryan Texas Therapeutic institute and Institute for Molecular Medicine at the University of Texas Houston Health Sciences Center, USA
Coffee/Tea Break 11:00- 11:30	
11:30-12:00	Keynote Session Title: Pre-SVF arthroscopy: new concept of meniscus and cartilage regeneration using special technique of arthroscopy followed by intra-articular injection of adipose-derived stromal vascular fraction Nizar Al-Salahat Medical Director& head of Orthopedic Surgery, Jordon
Scientific Sessions II	
12:00-12:30	Title: The use of mesenchimal stem cells in plastiuc surgery Roberto Viel London Centre for Aesthetic Surgery Gulf, UAE
12:30-13:00	Title : Effect of Laminin on Neurotrophic Factors Expression in Schwann-Like Cells Induced from Human Adipose-Derived Stem Cells In Vitro Mina Tadjalli College of Veterinary medicine, Iran
Networking Lunch - 13:00- 14:00	
14:00-14:30	Speaker Slot Available
14:30-15:00	Wayne Matthew Channon Cells4life, UK
15:00- 16:00	Poster Presentation
Coffee/Tea Break 16:00-16:30	
16:30-17:00	Title: Induction of liver cirrhosis and treatment of Cirrhotic liver by mesenchymal stem cells derived from adipose tissue in rat model. Seifollah Dehghani Nazhvani College of Veterinary medicine, Iran
Panel Discussion	

Day-3	
09:00-10:00	Meet & Greet
10:00-10:30	Keynote Session Title: "The role of Photobiomodulation in Stem Cell therapy and Regenerative Medicine" Prof Heidi Abrahamse Laser Research Centre, University of Johannesburg
10:30-11:00	Title: MSK Ultrasound guided Injections Using Regenerative Injection Therapy for Chronic and Neuropathic Pains Jeimylo C de Castro The Medical City South Luzon Department of Physical Medicine and Rehabilitation, Philippines.
Coffee/Tea Break 11:00-11:30	
11:30 - 12:00	Mandi J. Lopez Professor and Director, Laboratory for Equine and Comparative Orthopedic Research, Louisiana State University , USA
Scientific Sessions III	
12:00 - 12:30	Mahsahid Kharaziha Assistant Professor, Department Material Engineering, Isfahan University of Technology, Iran
Networking Lunch - 12:30-13:30	
13.30 - 14:00	Mohammad H. Nekoofar Cardiff University, UK
14:00 - 14:30	Title: Treatment of degenerative disc disease using stem cell therapy: advances and challenges G. Rasul Chaudhry Oakland University, USA
14:30-15:00	Jacqueline Ameri Assistant Professor, Danish Stem Cell Center, Denmark
15.00 - 15.30	Title: Effect of Mechanical Factors on Stem Cell Myogenesis Alexander Spector Johns Hopkins University, USA
Coffee/Tea Break 15:30-16:00	
Panel Discussion
